**RUBBER MAT FOR ELECTRICAL PURPOSE:
(IS: 15652/2006)**

Application : Floor covering for the protection of workers on AC & DC installations with the system voltages upto 66 kV ac & 240V dc.

Construction : Insulating Rubber Mat made from highly electrical resistant elastomer, free from any insertions.

Surface : Upper surface of the rubber mat is having small anti-skid aberration marks (rough surface without edges) to avoid slippery effects and lower surface is plane.

Dimension : Length and Width : Standard sizes are 1Mtr. X 2Mtr. and 1.2Mtr.X 2.4Mtr.

Thickness : Thickness as per classification & designation

Silent Features of the Mats :

1. Flame Retardant
2. Low Temperature Resistant
3. Acid / Alkalis & Oil Resistant
4. Insulation Resistant with water
5. Low Leakage Current

Areas of application / use:

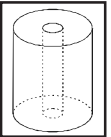

1. All kind of electric Sub-Stations
2. Transformers Rooms
3. Lift Machine Rooms
4. Switch Rooms
5. Electrical Panels
6. AC Plant Rooms
7. X-Ray Plant Rooms
8. LT / HT Labs
9. Around Bus Bars
10. Generator Rooms etc.

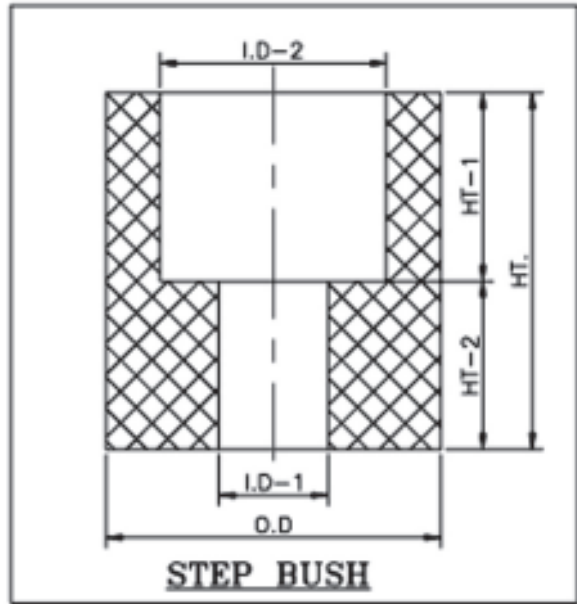

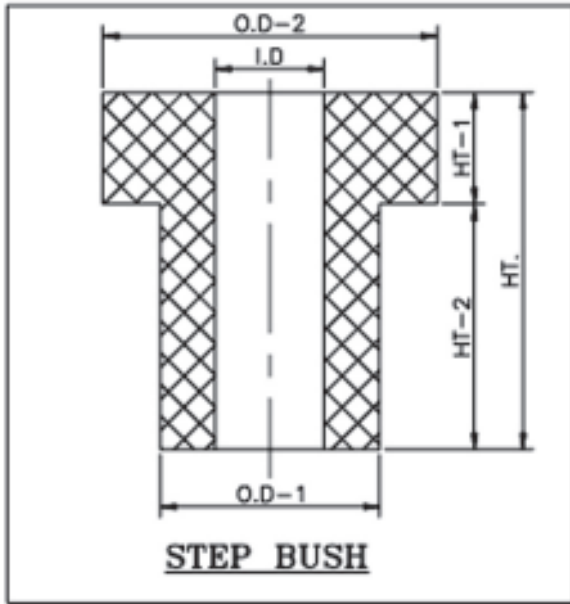

Gurudev Says : Generosity is not an act – it is a state of consciousness, but it always finds its expression in an act.
